

# LAKOS Drum Disposal Package

DDP-5520

## Collects and concentrates separated solids for convenient disposal

Converts a standard 55-gallon drum (not supplied by LAKOS) to an effective solids-handling system.

- Separated solids are concentrated up to 95% by volume, given the nature of the solids (i.e. finer solids compact more easily).
- All excess purged liquid may be recovered for re-use.
- No interruption of system flow during drum change-out.

## Package Componentry

All DDP Packages include the following equipment:

- **LAKOS Drum Shroud** with gasket seal, internal baffle to minimize solids loss to decant, and decant connection for recovery of excess purged liquid
- **LAKOS Drum Cart**; two-wheel low-truck style
- **Decant Hose**; reinforced rubber hose, 8 feet long, with quick-connect fitting
- **Manual Pump**; dual-action hand pump for the evacuation of excess fluid above the shroud prior to shroud removal; includes 5 feet of hose

Lakos Separators are manufactured and sold under one or more of the following U.S. Patents: 3,289,608; 3,512,651; 3,568,837; 3,701,425; 3,947,364; 3,963,073; 4,027,481; 4,120,795; 4,123,800; 4,140,638; 4,147,630; 4,148,735; 4,305,825; 4,555,333; 5,320,747; 5,338,341; 5,368,735; 5,425,876; 5,571,416; 5,578,203; 5,622,545; 5,653,874; 5,894,995; 6,090,276; 6,143,175; 6,167,960; 6,202,543; Des. 327,693; and corresponding foreign patents, including 600 12 329.4-08 (Germany) and EP 1 198 276 B1 (EU); other U.S. and foreign patents pending.
