

SIDE STREAM INSTALLATION LAKOS HTH-L Series with Auto-Purge

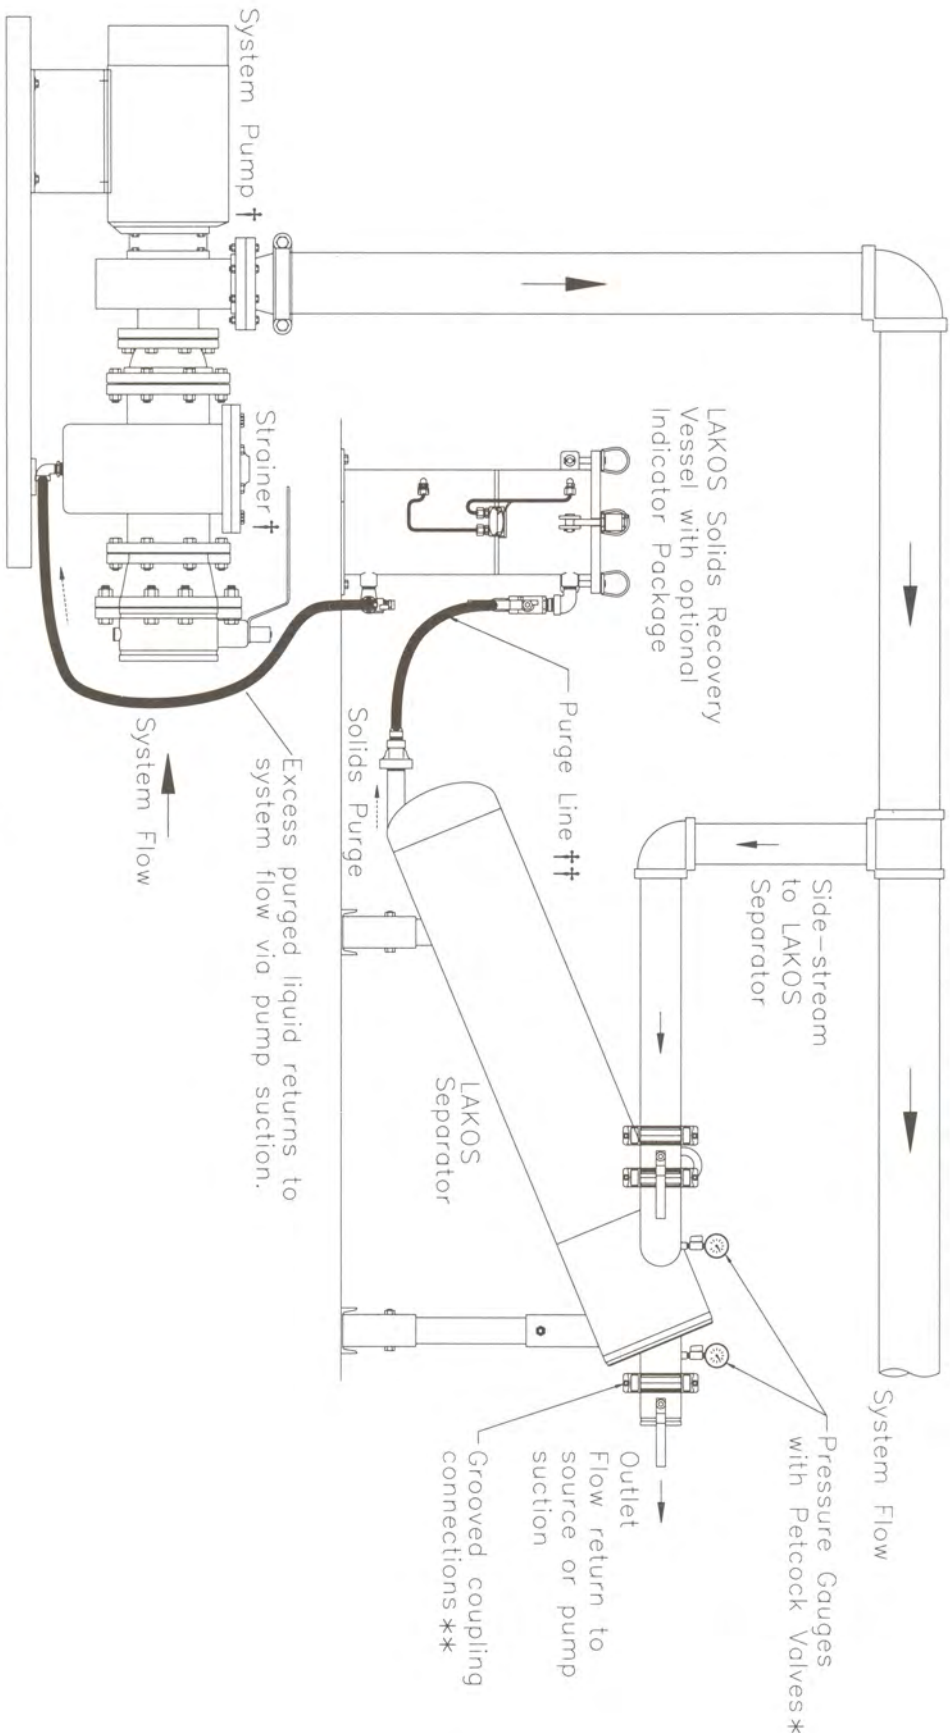

Note:
Avoid long purge lines and uphill piping to prevent clogging of purge line.

- * These items available as an "installation kit" from LAKOS.
- ** Inlet/outlet may also be specified with ANSI flanges, DIN flanges or other connections. Consult factory for details.
- *** These items available as an option from LAKOS.
- † These components not provided by LAKOS. Strainer is recommended standard practice for protection of pump from larger debris.

(See reverse side for solids-purging alternative.)

SIDE STREAM INSTALLATION

LAKOS HTH-L Series with Solids Recovery Vessel

* These items available as an "installation kit" from LAKOS.

** Inlet/outlet may also be specified with ANSI flanges, DIN flanges or other connections. Consult factory for details.

† These components not provided by LAKOS. Strainer is recommended standard practice for protection of pump from larger debris.

†† Purge line piping to SRV may be a "slight and short" uphill run only. Excessive length or elevation may clog purge line.

(See reverse side for solids-purging alternative.)
